

React Form - Validation

- ❑ Khác với javascript ta thường sử dụng để lấy giá trị thông qua 1 tag <input> ta phải thực hiện dom thông qua các selector sau đó truy xuất đến thuộc tính value để lấy giá trị ... mất khá nhiều thao tác. Tuy nhiên:
- ❑ Trong react chúng ta sẽ sử dụng thuộc tính state của component kết hợp cùng các sự kiện của control input để thực hiện việc lấy dữ liệu từ form dễ dàng hơn qua ví dụ sau:
- ❑ Css: https://drive.google.com/drive/folders/19pRgMaTFw3wNLnwSkynv_oXfZSZ7welq?usp=sharing

The screenshot displays a web application interface for managing products. At the top, there is a navigation bar with the 'Cybersoft' logo and links to 'Home', 'Shop', 'Form', and 'Sport'. A search bar is also present. Below the navigation bar, the breadcrumb 'Home/Products/Create' is shown. The main section is titled 'Create product' and contains a 'Product info' form. The form has several input fields: 'id' (with placeholder 'product id'), 'name' (with placeholder 'product name'), 'price' (with placeholder 'product price'), 'image' (with placeholder 'product image link'), 'ProductType' (a dropdown menu currently showing 'mobile'), and 'price' (with placeholder 'product price'). There are 'Create' and 'Update' buttons at the bottom of the form. Below the form, there is a table listing existing products. The table has columns for 'id', 'image', 'name', 'price', 'description', and 'type'. The first row shows a product with id '1', a small image, name 'Product 1', price '1.000', description 'Lorem ipsum dolor sit amet consectetur adipisicing elit.', and type 'Laptop'. There are also delete and edit icons for this product.

id	image	name	price	description	type
1		Product 1	1.000	Lorem ipsum dolor sit amet consectetur adipisicing elit.	Laptop

React Form - Validation

- Xây dựng giao diện như hình bằng bootstrap 4 như hình

- Xây dựng cấu trúc component như sau:

```
<FormProduct>  
  <Giao diện form />  
  <TableProducts />  
</FormProduct>
```

- Xác định state là gì ? (Array, object hay ...)
- Tổ chức lưu trữ state
- Thực hiện các tính năng CRUD
- Thực hiện kiểm tra validation

The screenshot shows a web application interface for managing products. At the top, there is a navigation bar with links: Cybersoft, Home, Shop, Form, Sport. A search bar is located on the right. Below the navigation bar, the page title is 'Home/Products/Create'. The main content area is titled 'Create product' and contains a form with the following fields:

- Product info** (Section header)
- id**: product id (text input)
- image**: product image link (text input)
- name**: product name (text input)
- ProductType**: mobile (dropdown menu)
- price**: product price (text input)
- price**: product description (text area)

Below the form, there are two buttons: 'Create' (blue) and 'Update' (green). At the bottom, there is a table with the following columns: id, image, name, price, description, type. The table contains one row of data:

id	image	name	price	description	type
1		Product 1	1.000	Lorem ipsum dolor sit amet consectetur adipiscing elit.	Laptop
